

# Free applications trigger viral attack on gadgets: Shirke

LOKMAT NEWS NETWORK  
NAGPUR, SEPT. 7

Quick Heal Foundation in association with Raisoni Group of Institutions organised a cyber security summit on the topic 'opportunities and threats in cyber domain' at Vasant Rao Deshpande Hall, Civil Lines, Nagpur for the students of BCA, BSc, CS, IT, Electronics, BCCA, BE- CS, IT, ETC and Electronics.

The function started with the lighting of the lamp at the hands of chief guest and CEO of Quick Heal Technologies Ltd Kailash Katkar and the guest of honour Ajay Shirke who is CSR head at Quick Heal Foundation.

Principal of GHRIIT Dr Mamta Muthal welcomed Kailash Katkar with a bouquet and a memento.

The seminar was organised with an objective to

A speaker addressing the gathering while others look on.

create awareness amongst the youth on current cyber crime scenario, cyber threats, employability prospects in cyber security domain, unauthorised access to accounts, etc.

Kailash Katkar briefed the students on cyber security industry and

career opportunities in cyber security through coding, developing and ethical hacking. while Ajay Shirke in his speech mentioned about the various viral attacks through free applications available on gadgets.

He also mentioned that there are nearly 33 crore

new viruses which are encountered every month by Quick Heal Technologies Ltd. The session was followed by question and answer session.

Principals of colleges across Nagpur region and students were present for the seminar. It
