

Cyber Security Workshop organised

LOKMAT NEW NETWORK
NASHIK JUL 20

A programme on cybersecurity and cyber threats was organised by Quick Heal Foundation, Maharashtra Cyber Cell and R H Sapat College of Engineering. The programme included lectures on Cybersecurity and cyber crimes, delivered by PSI Desale, Deshmukh and CSR Manager Sugandha Dani from Quick Heal Foundation. The college is associated with Quick Heal Foundation for 2 years and has organised many programmes on cyber security with the intention of creating awareness among students and society. More than 3,000 students of various schools and colleges were a part of this programme and were taught about cybersecurity by

Gokhale Education Society's R H Sapat College of engineering, TPO Dhanraj Deshpande. Desale addressed the students and told them about the importance of cybersecurity. He also shared his experiences about certain cybercrimes cases and how he dealt with them. Later, on Dani explained to the students how to stay aware of cybercrimes. She also explained to them how to spread awareness amongst the students of different age groups about cybersecurity. The event was conducted in the presence of principal Dr. P C Kulkurani and head of the computer engineering department Dr. D V Patil. Project Director P M Deshpande and establishment director Shailesh Gosavi shared their guidance and supported the programme.
