

Cyber Warriors Club formed in KTHM College

Students will get the opportunity to engage in creating cyber awareness

LOKMAT NEWS NETWORK
NASHIK, AUG 12

A memorandum of understanding (MoU) was signed recently between KTHM College, run by the Maratha Vidya Prasarak Samaj (MVPS), and the renowned Quick Heal Foundation, specialising in cyber security. As a part of this initiative, students will get the opportunity to engage in activities to create cyber awareness at various schools, colleges, and public places.

Students from MVPS will receive both financial assistance and lessons of cyber security under the 'Cyber Shiksha for Cyber Suraksha' campaign, post this MoU.

In today's digital age, the increasing use of the internet and its unsuspected consequences can lead to financial fraud. This can result in both financial and mental distress.

20 students selected for this initiative

As many as 20 students have been selected for this initiative. Four students from the Computer Science Department of the college - Tejal Kharade, Sakshi Jadhav, Shraddha More, and Suvarna Waghmare, have been selected as Club Officers, while the other 16 students from the same department have been selected as Cyber Warriors.

The students will play a guiding role in conveying how to avoid such issues and where to file complaints about it.

All these students received guidance from Principal Dr RD Darekar, Head of the Computer Science Department Dr Rahul Patil, and Coordinator Sunita Deore.

General Secretary of MVPS Adv Nitin Thakare, President Dr Sunil Dhikale, Chairman Balasaheb Kshirsagar, Vice-President Vishwas More, Deputy Chairman Devram Mogal, Secretary Dilip Dalvi, and all the directors and officials appreciated this initiative.
